

Arley Cuadrado Sierra

Product & UX/UI Designer
Bogotá, Bogota, Colombia | arley.cuadrado@icloud.com | 3103644977

Profile

Product & UX/UI Designer with 8+ years designing scalable digital products, design systems, and omnichannel experiences for banking, technology, pharmaceutical, automotive, and aviation clients. Combines product strategy, user research, and high-fidelity visual design with frontend implementation to accelerate delivery and produce accessible, production-ready interfaces. Known for partnering with cross-functional teams to translate complex user flows into consistent, high-performing experiences.

EDUCATION

Universidad Internacional de La Rioja
BSc in Computer Engineering, 2024
Diploma in Data Analytics for Business Management

Universidad Tecnológica de Bolívar
Associate Degree in Systems Engineering, 2018

EXPERIENCE

UX/UI Designer & Frontend Developer, Publicis Groupe, Bogotá
Apr 2022 to Oct 2025

- Led UX/UI execution across enterprise-level digital products, translating complex user flows into scalable, high-performance interfaces.
- Built responsive design systems that improved visual consistency and accelerated production workflows across multi-platform campaigns.
- Designed omnichannel experiences, landing pages, and branded digital assets for global clients across technology, automotive, and healthcare sectors.
- Partnered with developers, stakeholders, and multidisciplinary teams to deliver user-centered digital solutions aligned with business goals.
- Directed design QA and usability validation processes, ensuring responsive and production-ready deliverables.

UX/UI Designer & Frontend Developer, Vass Latam, Bogotá
Nov 2019 to Mar 2022

- Designed enterprise interfaces and interactive prototypes focused on usability, scalability, accessibility, and conversion optimization.
- Conducted UX research and behavioral analysis using Hotjar and analytics tools to identify friction points and improve customer journeys.
- Improved e-commerce purchasing experiences through user-centered flows and conversion-focused interface strategies.
- Collaborated within Agile/Scrum teams delivering scalable digital solutions for enterprise clients.

UI Designer / Developer, Grupo Dot, Bogotá
Oct 2018 to Nov 2019

- Designed modular UI systems and responsive digital experiences for e-commerce and web platforms.
- Applied responsive and mobile-first principles to improve usability across desktop and mobile experiences.
- Collaborated with development teams to ensure accurate implementation of design systems and interfaces.

Web Designer / Developer, Leo Burnett, Bogotá
Apr 2018 to Oct 2018

- Designed responsive landing pages, email campaigns, and digital banners for multinational advertising campaigns.
- Created mobile and desktop UI concepts and prototypes for digital marketing initiatives.
